

A chocolate cone for you?

4 de septiembre de 2021

“Cone” (cono) in maths and “traffic cone” (cono señalizador) you may know. A road can be “coned off” (cerrado con conos).

There is also a botanical use: a cone = piña.

Now another use: sometimes mortals like to eat an “ice cream cone” (= cucurucho), perhaps with chocolate on top, or as a flavouring in the ice cream.

So, would you like an organic ice cream cone with chocolate on top?
