

Do you have a silken voice?

2 de marzo de 2021

“Silken” comes from “silk” (seda). Sometimes females wear a silken (de seda) dress, and also “silken hats” (sombrosos de copa).

There are silk “industries” (industrias sederas) in some countries, and these industries use silk thread (hilo de seda).

A material could be similar to silk (sedoso), or the material could have a “silkenness” appearance (sedosidad).

There is another use. Mortals can have a silken voice or manner (suavidad, lo mimoso). A voice can sometimes be silky (suave).
